Not a good book.

By Marie83

To begin with, I am a foreign straight A student and no whiner. However, this book is hard to read. Way too much information stuffed into the chapters and the chapters are broken up into inconvenient chunks. There might be a lot of great information in this book but due to the setup it is hard to put everything together in a convenient way. In short, it does not do a good job at putting 1 and 1 together for someone who is new to the topic. I found another book (Belsky) that is far superior to this book and actually fun to read.

By Chris G

Woolfolk knows what she's talking about :)

Another great work, well structured and imperative for anyone that is around children - parents, teachers, caregivers, etc.

Current, readable, fun!

By Curious Pupper

Assigned forma a CDEV course and I was not disappointed! Very current, wholesome, applicable, and a smooth read.
