## Review

‘This sparkling collection of essays focuses on the acute political and social tensions that wracked Germany from 1866 to 1918... This is a work in which a leading scholar brings fresh analytical insights to bear on the age of Bismarck and Wilhelm... Highly recommended.’

(S. Bailey Choice Magazine vol 53:06:2016)

## Review

“One of the profession’s leading experts on the Second Reich, James Retallack writes with a grace and clarity that showcases his broad knowledge, judicious reading, and generosity of spirit. Both newcomers and experts alike will benefit from these essays.”

(James Brophy, Francis H. Squire Professor of History, University of Delaware)

“This lively and very wide-ranging essay collection makes a valuable contribution to our understanding of Imperial Germany and its place in the trajectory of modern German history. James Retallack deals as confidently with authoritarianism as he does with popular politics, both of them very evident in the Germany of Bismarck and the Kaiser, and his book has the virtue of including views of Germany by British and American observers.”

(David Blackbourn, Cornelius Vanderbilt Distinguished Professor of History, Vanderbilt University)

“Have historians been too quick to abandon the Sonderweg thesis? When one of the world’s foremost experts on the German Kaiserreich plays the devil’s advocate and proposes a re-evaluation of the topic, scholars should sit up and take notice. In these chapters Retallack invites readers to revisit the nature of

Germany's journey into modernity.”

(Ute Planert, Professor of Modern History and History Education, University of Wuppertal)

About the Author

James Retallack is a professor of History and German Studies at the University of Toronto. His most recent book for the University of Toronto Press was *The German Right, 1860–1920*.

# **GERMANY'S SECOND REICH: PORTRAITS AND PATHWAYS (GERMAN AND EUROPEAN STUDIES) BY JAMES RESTALLACK PDF**

Despite recent studies of imperial Germany that emphasize the empire's modern and reformist qualities, the question remains: to what extent could democracy have flourished in Germany's stony soil? In Germany's Second Reich, James Retallack continues his career-long inquiry into the era of Bismarck and Kaiser Wilhelm II with a wide-ranging reassessment of the period and its connections with past traditions and future possibilities.

In this volume, Retallack reveals the complex and contradictory nature of the Second Reich, presenting Imperial Germany as it was seen by outsiders and insiders as well as by historians, political scientists, and sociologists ever since.

#### Most helpful customer reviews

2 of 3 people found the following review helpful.

Not for the beginner!

By Alexander P. Waugh Jr.

This is not really a book for those who are looking to learn the basic history of the Second Reich, basically Germany from 1866 to 1918. It contains a series of interesting scholarly essays, all of which require at least a working knowledge of the history of the period and the historiographic issues related to its study. With sufficient background, there is much to be learned from these essays.
