Author Gary David offers highly detailed research and compelling theories throughout *Star Shrines and Earthworks of the Desert Southwest*. This is the third book of David's that I have read and each one is better than the one before. A must read for anyone interested in the American South-West/Four-Corners regions first peoples and the intrinsic archeoastronomical aspects of those cultures existence.

Gary A. David is a very thorough author.

I've read all of the books by Gary A. David. He is not prone to flights of fantasy. He has done an excellent job when researching the information he provides and there is always something new and exciting in his discoveries. He is hands on in his research and quite frankly leaves me desiring a chance to see a lot of his discoveries and to meet some of the people he has introduced to me. I think you will enjoy this book as well, especially if you can see the mystery and intrigue of ancient cultures as I do.
