THE CROW BOX (THE SHADOW & INK SERIES BOOK 1) BY NIKKI RAE PDF

The small wooden box is dirty, the size of a human fist, and sealed with wax. When Corbin takes it upon herself to clean it and break the seal, a voice she has tried to ignore gathers strength. Shadows play on the walls at night, and with a family history of mental illness, Corbin fears the worst. But the voice tells her it is real. That its name is Six and it will prove it in time.

Drawn to this mysterious entity, Corbin isn't sure what to believe and the line between reality and her imagination blurs more every day.

Some doors should not be opened; can this one be closed?

Reading 'The Crow Box' is like going on a dark scary wild ride

By Pseudosynth Press

Reading 'The Crow Box' is like going on a dark scary wild ride. Only this ride doesn't stop...it keeps going and sucking you into its story slowly unraveling its gripping inner contents. Corbin, the main character, is a deep full character that is someone who is unsure about life and all it has to offer so she might or might not be—going insane? Dysfunctional family included, this entire story is a 'Poe-like' tale that weaves through your brain making you want more and stifles your ability to stop reading. "I have to see what is next, peeking around the corner, and forget about life for a while" is what a book should be. This delivers in the form of a Gothic horror tale that winds through your thoughts and whispers "Six" to you. I read this in one sitting and love the descriptive narrative, style, and characters that were full and rich. I am going to let this book sink into my brain a little. It isn't easy to forget this story. It stays with you when you finish it. Like everyone else who loves this book, we'll wait for the next in The Shadow and Ink Series with anticipation and reverence.

A Voice in Her Head...

By Kimmy's Korner

The Crow Box was compelling and I can't remember how it came to be on my Kindle but I was intrigued by the cover only to realize that the protag is only 21 ish and a college student. Her experience with voices, paranormal phenomena and such was good but the extraordinary parts that kept me reading were the descriptions of her hoarder mother and their relationship. Rae writes beautifully and I'd highly pass this book to anyone who likes the strange, the supernatural and being intrigued.

Dark, compelling story of mental illness and supernatural love

By Laela Ae

I was given a copy of this book in exchange for an honest review, and at first I didn't know what to expect. Was it paranormal romance? A creepy tale of the supernatural? A study in mental illness? The answer is that it combines elements of all three, for a unique and fascinating beginning to what looks to be a promising series.

Corbin, the main character, is an art student worried that she has inherited her mother's problems with mental illness. When she starts hearing voices, sleepwalking, and seeing and sensing things that don't seem possible, she becomes convinced of it, and ends up spending part of the book voluntarily institutionalized. However, the truth is that everything she thinks can't be true, is. The story breaks off just as everything is being revealed, and we can hope it will be continued in the next installment.

Corbin is a sympathetic, complex character, and through her eyes we see detailed portraits of "ordinary" things: hipster/art student culture, living and dealing with the mentally ill; and less ordinary things, such as mental breakdown and supernatural phenomena. Her own experiences of possible mental illness are compelling and draw the reader in, and the revelation of what's really going on is well-handled, building tension and suspense throughout the narrative. The epigraphs and the black-and-white illustrations that accompany the text add another layer of charming depth to what is a fairly compact work.

While not gross or violent, this is a genuinely dark story with some creepy and disturbing scenes, so readers looking for a lighthearted paranormal romance will probably not be satisfied. However, if you're looking to read something with art, asylums, and paranormal love that will suck you in and maybe even send a shiver up your spine (the bit with the snakes...agh!), "The Crow Box" is an excellent choice.
