A must read

By Knoplya

This is the book all bartenders want to read. There are plenty of books they think they have to read, but this is the one they want! I loved it the first time I read it and the second. As someone who has worked the better part of my 20's from behind the counter at bars all over the east coast, I can hands down say that this is the real deal. Funny, well written and its as tough the bartenders are telling your their stories one on one, across the bar.

Well recommended.
