This publication The Seth Material: The Spiritual Teacher That Launched The New Age By Jane Roberts is composed for public and you are one of them that can take pleasure in reading of this publication [The Seth Material: The Spiritual Teacher That Launched The New Age By Jane Roberts](#)

THE SETH MATERIAL: THE SPIRITUAL TEACHER THAT LAUNCHED THE NEW AGE BY JANE ROBERTS PDF

Seth is the acclaimed non-physical teacher whose collected works are the most dynamic, brilliant and undistorted map of inner reality and human potential available today. His articulation of the furthest reaches of human potential, the eternal validity of the soul, and the concept that we create our own reality according to our beliefs, has been presented in books that have sold over 8 million copies and been translated into over a dozen languages. Seth's empowering voice clearly stands out as one of the major forces which led to the current New Age philosophical movement. This book chronicles Seth's first contact with author and medium Jane Roberts. It is a mixture of great Seth excerpts, selected by topic, and further explained by Jane. Topics covered include: afterdeath & between lives, how to get rid of illness, reincarnation, why people are born into different circumstances, God, All That Is, Dreams, exercises to develop the inner senses, and much more.

A doorway

By senjas@island.net

I first encountered The Seth Material on a rainy afternoon in the upper level stacks of the Towanda Public Library, in Pennsylvania. Earlier, in a local paper, I had seen a small write-up about a woman in Elmira, New York, who goes into trance and speaks as someone named Seth. "Yeah, right," I remember thinking.

Then that day in the library, my hand closed over a volume. I saw the title, shrugged, and checked it out. I had no idea of the ride I was about to embark upon.

At age 40, I was not totally unprepared for Seth. I had studied Rosicrucian monographs for nine years and, since my early twenties, had felt a keen interest in metaphysics and philosophy. Yet, I had always had a skepticism about mediums and seances and things ectoplasmic.

I began reading. I learned of the coming of Seth into the lives of Jane Roberts, and her husband Robert Butts. It was bemusing to follow the progress of two people who may well have been as skeptical as I. Well, how would you feel if suddenly some personality essence entity entered your body and proceeded to lecture? It's quite one thing to accept it in theory, but if it happened to me, I think it would scare me-well-witless.

I read on. I got past the mediumship thing and into the meat of the message. When I began to assimilate what Seth was saying, I no longer cared whether Ms. Roberts was getting the information from a disembodied

spirit or her goldfish. The material, to me, was electrifying.

On one hand, it seemed hauntingly familiar. I found myself saying, "of course, that's how it must be!" And "yes, I seem to remember...." On the other hand, it took me a very long time to read The Seth Material (and every other Seth book). You don't speed read Seth! I would encounter a concept, read the paragraph over and over until I thought I understood it. Yet there was always a nagging feeling that I didn't, not completely, and I kept doing a Scarlett O'Hara: I'll think about it tomorrow.

All that was nearly thirty years ago. Since then I've purchased all of the Seth books and have read them many times. I will, as long as I continue to have a pulse, read them many times more. I once wrote to Robert Butts and told him that the Seth books were my easy answer to the question, what books would I take if shipwrecked. I only partially joke when I say they keep rewriting themselves between readings, offering more and more information as I become capable of comprehending it.

Has all this changed my life? Indeed! Once begun, the material became an inevitable path of study. It challenged, and often stripped away, many of my most ingrained beliefs, and expanded my consciousness so that my view of the world is forever altered. Did the Seth books offer a magic solution to all my problems? Of course not! Have they offered new insights on how to deal with them? Absolutely-but more as a by-product of what I consider to be the most fascinating, absorbing, and stimulating information on the nature of everything.

I find Seth to be fun. Like an early, beloved schoolteacher whose influence persists throughout our lives, Seth speaks with humor, compassion and patience. Seth is not a cult. Seth is not a religion. Seth does not proselytize. Seth teaches. If you start with The Seth Material-and I do recommend reading the books in the order in which they were written-there are more than a dozen more, each superb.

If I were asked to give a one-sentence description of all of Seth's material, I would quote my son who was brought up on it: "It's the highest distillation of common sense."

Almost Weaned on Seth

By A Customer

I was first introduced to Seth when I was only 16 (and that was 30 years ago). I've read the Seth material over and over again throughout the years and have never ceased to be amazed at what I learn, (and/or relearn), from each reading. There is no doubt that this book has had a profound influence on my way of viewing my existence and the world, and I find Seth to be a wonderful teacher. As a side note, several years ago I stumbled across the book by Richard Bach,(of Jonathan Livingston Seagull fame), called 'Illusions' which quickly became my favorite book behind Seth. I recognized some of the Seth philosophy in his book and felt he had done a great job of explaining some very complex material in a way I could easily understand. Much later, I was very surprised and pleased to find a book review written by Richard Bach, on the Seth Material, on the back of one of my many re-purchased books of The Seth Material! (I kept giving the Seth Material away to friends.) I heartily recommend The Seth Material to anyone who is 'focused in this physical reality'! but wants to know more.

Very good for a "Jane" book.

By Shawn Regan

The story of Seth and how Jane and Rob started communicating with Seth. It contains some of the information further elaborated on in Seth Speaks. I had originally put this book off because it looked more narrative and less informative but this was an incorrect judgement on my part. Like many other book series I would recommend reading the Seth works in the order in which they were written for the best comprehension. This book is a "Jane" book which contains some excerpts from Seth sessions.
